

COURTNEY

Junior Stewardess

I am very hard working and I am extremely organised and tidy. I am good with people and making them happy. I am a team player and work well with others. I have a good attention to detail. I love the ocean and spent many years as a lifesaver where weekends were at the beach. I love animals and nature. I avoid drama when possible and tend to be easy going. I am looking for my first junior stewardess position where I can transfer my hospitality and hostessing experience as well as utilize my skills that I have learnt throughout my interior design diploma and become an asset to any team. I am a very fast learner and eager to learn from those around me and my fellow team mates.
