PERSONAL STATEMENT

I am eager to transition to my next vessel where I can utilize my current skills and experiences to further advance my career within the yachting industry and add value to the program, crew team and owners experience. My background includes working as a deckhand where I then transitioned to a junior Captain for Your Charter Solutions. I successfully completed charters on different vessels ranging from 40' to 60'. In my former position as a Captain for a 60' Azimut, I ran a busy charter program, while also occasionally assuming deckhand duties on a 108' Mangusta owned by my employer, to help the crew on trips and charters if needed. I consider myself a self motivated, well spoken, career focus individual.

EMPLOYMENT HISTORY

M/Y | Azimut 60' Miami, FL
 October 2023 - 21 May 2024

In my role as the Captain for this heavily charter/ private vessel, I was in charge of running all aspects of the boat as the only crew member. I have completed charters with high profile guests, as well as managing yard periods and overseeing a major repair project to replace one of the engines. I was responsible for keeping and updating spending records and maintenance books. I have completed teak sanding and restoration projects for this vessel. This employer also owns a 108' Mangusta, where at times I will help the crew with deck duties when the vessel has boss or charter trips.

M/Y | Sunseeker 55' Miami, FL
 April 2023 - October 2023

As the Captain of this vessel, I was in charge of overseeing all aspects of the boat. I managed all maintenance, repair projects and upgrades. I frequently took the owner and his guests out on day trips in local waters as well as trips to the Bahamas. I was in charge of navigation and planning all trips with the vessel, whilst maintaining a high degree of safety and compliance with the US Coast Guard and maritime laws.

Miami, FL
 Jan 2022 - March 2023

Starting off as a deckhand for this multi vessel charter operator company, I have worked closely with a team of 2 Captains in order to run a fleet of 6 different vessels ranging from 44' to 62'. Progressing to the role of Captain I assumed responsibility for hosting charter guests and owners on various company vessels, while managing crew dynamics. Whether as part of a team or as a solo crew Captain, I ensured seamless operations and upheld the highest standards of cleanliness across all decks.

S/V | Catalina 30' Miami, FL
 Jan 2021 - Jan 2022

I worked as a deckhand on this sailing vessel where I assisted the Captain with regular deck duties, such as lines and fenders, regular wash downs and keeping the deck organized.
