**About Me:** I have spent my whole life on the water. Growing up in South Florida and the Bahamas, I always knew I would be a captain. In the 25+years in this industry, I had the opportunity to gain knowledge as a mate early on and quickly attained my captain's license. From the beginning my priority was and always will be the safety for the passengers, crew and vessel, while providing lifetime memories and experiences all over the world.

I have been responsible for overall interior/exterior day to day and long term maintenance and engineering. Including, but not limited to: Oil and filter changes, pumps and impeller replacement. Cleaning and maintaining A/C and main engine strainer baskets. Troubleshooting any and all issues that may arise underway. Teak and deck maintenance and shipyard maintenance. Hiring crew and keeping a positive and safe environment for owners, guests and crew. Making sure the vessel is 'Palm Beach Perfect' and 'Boat Show Ready' at all times.
