Guest Testimonials

July 2020, S/Y

"Katie was integral to our family's charter being a trip to remember forever. She is an excellent chef! She prepared food that was some of the best we had ever enjoyed and her presentation skills are top notch. Katie has the uncanny ability to exhibit an exceptionally high level of professionalism while at the same time blending in her own warm and friendly personality traits that made us feel welcome and at ease. I believe Katie will be a highly valued addition to any organization fortunate enough to have her as part of their team. We will most definitely request Katie when booking our next charter!"

February 2021, S/Y

"In February 2021, we spent nine days on the LIR in Saint Martin. Katie was our chef. I cannot recommend her highly enough. She is an excellent chef, has a great disposition and provides an excellent level of customer service. Every time we crossed paths, she was smiling and asked if we needed anything. She was friendly when we came into the galley to ask about meal prep - even if when she was quite busy. We had a few dietary requirements and she was able to always find a gluten alternative and lactose free options for one or two guests that were delicious. We also celebrated three birthdays on board and she was able to build out custom meals to each person's liking. Finally, the food was outstanding, whether it was breakfast, lunch, appetizers or dinner. Each one was delicious and presented very nicely.

Beyond the excellent and timely food service for eight guests, Katie is just a nice and pleasant person to interact with and be around. The crew and the food made our trip an excellent charter and I would highly recommend Katie as a chef any time."
