M/Y

60m | Stewardess

I worked onboard for over a year in a team of 10 becoming proficient in service, housekeeping and laundry. This role demanded adaptability as I operated not only on the yacht but also supported land-based functions and other vessels within the fleet. The fleet's high standards required a precise eye for detail, professionalism, and superior service delivery. Working alongside a diverse crew enriched my communication skills significantly, fostering a collaborative and culturally aware work environment.

M/Y

50m | 3rd Stewardess

The owner utilized the yacht almost every weekend, and during the season, we undertook a 6-week trip. I rotated between all 3 departments developing my ability to take initiative. I earned the trust to independently serve guests, having demonstrated my competence in the role.

While dayworking on Soy Amor, I displayed eagerness and reliability, which resulted in an offer for a temporary 3rd stewardess position to assist during a busy two-week charter. My responsibilities included managing laundry, turn-ups, and turn-downs.
