

SEABOB F5 SR  
22 km/h

SEABOB F5 S  
20 km/h

SEABOB F5  
14 km/h

## WHAT DO I NEED TO KNOW?

The Seabob is a high-performance electric -driven underwater sled that allows the driver to ride on the surface or under water, at speed of up to 22 km/h.

The Seabob is maintenance free, comes fully charged and ready to use.

Running time: mixed use up to 2 h  
Charging time: 9 h or 1.5 h with quick charger

For safety reasons maximum depth is limited to 2,5 m. Upon request the maximum depth can be reset to 40 m for professional divers. Use of goggles is essential.

Best fun when using Seabobs in tandem.
