OBJECTIVE

Born and raised in a small Brazilian island, I was always a few steps from the sea. My father had a 75ft fishing yacht, what brought my first passion for being and understanding the sea. At the age of 16 , I started to practice wakeboard with the #1 athlete in South America, and kept being his official pilot from 18yo till 23yo.
Besides that, I started working on a 83ft yacht for a Brazilian family, but Brazil yachting is a completely different experience than the rest of the world. What made me decide to go to Europe and step down from captain and learn this new yachting, charter culture. In 2023 I came to the USA on a big charter boat, and Then decided to keep my captain and Engineer Career from this point.

TIMELINE:
2023 - 2024:

CAPTAIN/ENGINEER	MY ██████	68ft Sunseeker manhattan - Private
CAPTAIN/ENGINEER	MY ██████	105FT - Private and Charter
BOSUN / ENGINEER	MY ██████	185ft - Only Charter

2021-2022:

MATE / ENGINEER First time working out of Brasil. Meeting the charter life and real yachting experiences.. worked on about 3 different boats, over 7 different countries all over Europe.

2019-2021: 🇧🇷

CAPTAIN/ENGINEER   MY ████ 83ft Ferreti 2013 - Private

2013 -2019: 🇧🇷
