Accolades

"Thacher was the engineer onboard and his knowledge of ships systems was immensely helpful. He worked hard during the trips and performed well at his job." Capt. [REDACTED] M/Y [REDACTED]

"Thacher helped set up and get ready for delivery in a very short space of time... he continually maintained generators in rough weather, replaced the leaking water maker high pressure hose and changed a melted capacitor on the air conditioning unit" Capt. [REDACTED] S/Y [REDACTED]
