

MIGUEL [REDACTED] CAPTAIN MASTER 100 TON

With over 24 years of extensive sea service and boating experience, I have honed my skills through engagements with both the Coast Guard and private civilian yachts. This includes operating various yachts as well as state-of-the-art 154-foot Fast Response Military Ships. My expertise extends to outboard motors, jet drive vessels, and inboard/outboard diesel engines. I possess a deep knowledge of the waters in South Florida, the Bahamas, the Exuma's, and all the way through the high seas to the Eastern Caribbean and the Lesser Antilles. Coupled with my 20 years of certifications in First Aid and CPR, including training as an AED operator, I am dedicated to ensuring a safe and enjoyable voyage for all. As a retired Coast Guardsman with two decades of experience, I have a profound understanding of state and federal maritime laws. Over the last nine years, I have excelled in multiple private and yacht charters throughout South Florida. I am currently working to elevate my credentials to Captain 500 Ton, further enhancing my capability to offer exemplary service on the water.
