Interpersonal relationships

Ironing and sawing

OBJECTIVES

I worked in the hospitality industry for twenty years. I enjoy making other people happy and there is nothing that gives me greater pleasure than being able to deliver excellent service anticipating guests' needs. I fell in love with the boating world years ago, and ever since I have been eager to work on larger vessels. I love to travel and hospitality is in me, so I find this job a perfect fit.

I would like to continue growing my career in the yachting industry.

I am interested in working on larger vessels to further improve my hospitality and managerial skills.
