### **100-██████████ / Mate Experience**

Captained vessels from 10 to 100 feet, including six pack charters, bareboat charters, powerboats, sailboats, catamarans, and schooners for corporate events, weddings, dive trips, and other special occasions. Managed up to 6 crew members. Educated guests regarding safety and preparedness.

Oversaw vessel maintenance from inspection and repair to ongoing oil changes, haul-outs and bottom cleaning, electrical repair, heat and shower pump maintenance, compressor and generator maintenance, crane and rigging operations, and more.

Managed navigation and communications with other vessels and port authorities to ensure safe passage. Maintained accurate logs and weather reports.

- Conducted daily, weekend, and extended scuba diving trips to Channel Islands and Baja destinations, ensuring streamlined logistics, safety, and excellent guest experience.
- Maintained outstanding safety record by performing regular onboard safety drills, including man overboard, fire drills, CPR / First Aid training, donning PFDs, emergency life raft, and evacuation drills for crew passengers.
- Managed and navigated all tender runs from moorings and anchorings to land excursions and water sports including jet skis, scuba diving, snorkeling, swimming, kayaking and fishing, keeping passengers safe and secure at all times.

### **DELIVERY & TRANSPORTATION EXPERIENCE**

- Successfully and strategically delivered numerous power boats and sailboats (10-100 feet) throughout coastal and inland waterways of United States and Baja California, ensuring timely and safe arrivals.
