

KENDRICK

CAPTAIN

SUMMARY

Seeking a long-term Captain's position aboard a 80'-120' motor yacht where I can utilize my experience managing crew, implementing safety policies, compliance, yacht maintenance, and handling program operations to provide a five star yacht program and experience for Owners and guests. As a licensed Captain since 2015 with 10 years of experience as a Firefighter/EMT, I am confident my dynamic skill set will add value to your program and team.

PROFILE

Experienced Captain with background managing both charter and private yachts up to 150ft across the USA, Bahamas, Caribbean, and Mediterranean.

My leadership style is flexible; I focus on empowering my crew to exceed their expectations and use their unique skills effectively. I believe in leading by example and don't shy away from getting my hands dirty alongside my team. I value collaboration and often seek input from my crew to make informed decisions.

I was drawn to a maritime career because of my lifelong love for the water, which started with boating experiences with my father. My background as a volunteer firefighter, where I helped build a water rescue program, naturally led me to pursue a career on the water.

During my time with Sea Tow, I significantly increased the presence and productivity in the Southport area and earned multiple life-saving awards for water rescues and CPR.

Outside of work, I enjoy being a father to a competition cheerleader and love fishing, watersports, and exploring new, off-the-beaten-path locations, including lesser-known Caribbean islands.
