PROFESSIONAL PROFILE

Experienced and service-driven teammate with nearly a decade of progressively responsible roles in both the private and charter sectors, now seeking my first Captain position aboard a professionally-run motor yacht.

With a lifelong connection to the water, I bring a strong foundation in vessel operations, guest service, and team leadership, having served as First Officer and Bosun on yachts up to 164' throughout the Bahamas, Caribbean, and U.S. East Coast.

Raised in Annapolis, Maryland, I was introduced to boating through fishing and crabbing with my father. My early entrepreneurial drive gave me hands-on experience with vessels starting in 2015, and I have steadily progressed from Mate to First Officer. I hold a Business Management degree from Salisbury University (2018) and have built a respected reputation over nearly 10 years within the South Florida yachting community.

I am known for my collaborative leadership style and firmly believe that the best Captains lead by example. Having performed nearly every onboard role myself, I actively contribute wherever needed—whether assisting with cabin turnovers, service, or galley support—and encourage team effort and cross-departmental cooperation.

My local knowledge, hands-on technical aptitude, and team-first mentality make me a strong candidate for a Captain role where I can continue to lead with humility, diligence, and purpose.

Seeking a freelance or full time Captain's position aboard a 70' - 110' motor yacht where I can utilize my experience managing crew, safety operations and protocols, compliance, yacht maintenance, and program operations to provide a five star yacht program and experience for Owners and guests.
